

Round Britain with a Brain Tumour

www.contessa32.co.uk

Josie was diagnosed with a brain tumour 5 years ago at just 21. Josie's life expectancy is now very uncertain but she is determined to **live life** to the full and try to make a difference for others in a similar situation in the future.

"More children and people under 40 die from a brain tumour in the UK than any other cancer and yet funds for research are seriously lacking."

Josie will sail 2,000 miles round Britain with her husband Roger and aims to raise £20,000 for **Brain Tumour Research** and £5,000 for **The Big C Centre**, a local support centre that has helped us tremendously over the past 2 years.

We will start our "Round Britain with a Brain Tumour Challenge" in May 2010 with a publicity start from Fox's Marina, Ipswich and sail anticlockwise around Britain over approximately four months.
